```
public clss Err {
        public static void main ([] String)
                Print (`Errors errors…")
        }
}
```

Errors:
- "clss" - not spelled correctly, supposed to be "class"
- No starting curly bracket after "([] String)" should be "([] String) {"
- No semicolons ending lines, there should be a semi colon after "print ('Error errors…");
- Print statement written wrong, should be "System.out.print("Errors errors…")"
- hould have semicolon after print statement "System.out.print("Errors errors…"); "
- Inside parenthesis written wrong on second line, should be "(String[] argos) {"
- Used two different types of delimiters in third line, should be the same: " Errors errors…"
